Philadelphia, PA | (215) 622-3361 | sbs342@drexel.edu | [linkedin.com/in/sabiha-shoyab](https://www.linkedin.com/in/sabiha-shoyab) |

EDUCATION

Drexel University

Philadelphia, PA

B.S. Computing and Security Technology, *College of Computing and Informatics*

Anticipated Graduation: June 2027

GPA: 3.50 | **Award:** Founder's Scholarship (Merit-Based)

Relevant Coursework: Introduction to Computer Science, Computer Programming I & II, Network Administration I & II, IT Security, Systems Analysis, Web Systems & Services, Introduction to Data Science, Database Management System, Computing & Informatics I, II, & III

Certification: Google Cybersecurity Professional Certificate

SKILLS

Programming & Scripting: Python, JavaScript, SQL, HTML/CSS, React Native, Bash/Shell

Cybersecurity Tools & Concepts: ELK Stack (Elasticsearch, Logstash, Kibana), Chronicle SIEM, Splunk, Wireshark, Nmap, Metasploit, Hydra, TryHackMe, Brute-force Detection, IoC Analysis

Systems & Infrastructure: Linux Command Line, Apache, Network Troubleshooting, Juniper Wi-Fi, Firebase, GitHub, Visual Studio Code

Framework & Methodologies: NIST, CIA Triad, Agile, OWASP Top 10, MITRE ATT&CK, Microsoft Office Suite

Data & Reporting: CSV/JSON Reporting, Kibana Dashboards, Security Documentation

EXPERIENCE

Security Analyst/ Technical Project Coordinator Co-Op (Blockchain & Cloud Security)

MMB Contractors – Philadelphia, PA 19103

September 2024 – July 2025

- Identified and reported over **15 system vulnerabilities** during security testing of CargoStak, contributing to a **30% increase in platform stability**
- Analyzed security logs and performance data from **5+ decentralized nodes**, detecting anomalies and validating **3+ critical risk vectors**
- Facilitated **technical meetings** with development and compliance teams, reducing remediation time by **20%** through coordinated workflows
- Researched blockchain threat models and cyber risks, supporting a revised risk strategy that reprioritized **2 roadmap features**

Systems Intern

Drive Integration – Lansdale, PA 19446

June 2024 – September 2024

- Configured routers, switches, and servers across **3+ client networks**, enhancing access control and reducing security gaps by **25%**
- Built and deployed **2 secure web apps** using OOP, integrating **5+ mitigation rules** to block common threat vectors
- Supported **2 major network migrations** and performed **10+ system audits**, improving patching compliance and reducing downtime by **15%**

Customer Service Associate

CVS Pharmacy – Lansdale, PA 19446

July 2022 – January 2025

- Provided efficient customer service and accurately processed transactions, contributing to smooth daily operations and customer satisfaction

PROJECTS

SIEM-Based Threat Monitoring (ELK Stack) |

- Deployed ELK Stack to ingest and visualize Linux logs; built dashboards for failed login detection
- Simulated attack behavior to trigger alerts and demonstrate log correlation
- Emulated Blue Team monitoring environment

Penetration Test Lab & Report |

- Performed reconnaissance, exploitation, and privilege escalation using Nmap, Metasploit, and Hydra
- Identified vulnerabilities (e.g., weak credentials, open ports), documented CVEs and recommended mitigations
- Delivered structured penetration test report aligned with OWASP and MITRE frameworks.

Threat Detection & Log Analysis Pipeline |

- Built a Python tool to detect brute-force logins and suspicious IPs from Linux/Apache logs; generated structured CSV/JSON reports
- Applied custom detection rules and IP geolocation APIs to enrich data and simulate real-world SOC workflows
- Practiced incident detection, log parsing, and threat analysis in a sandboxed security environment

Device Tracker Application |

- Built a React Native app to locate devices on Juniper Wi-Fi, with real-time tracking and improved location accuracy
- Integrated APIs to fetch and display network data for connected devices within a centralized UI

Wardrobe Wizard Application |

- Designed a personalized wardrobe app using JavaScript, React Native, and Firebase for fashion advice and outfit cataloging
- Led a team of 4 and managed tasks via GitLab, contributing to sprint meetings and version control workflows

ACTIVITIES

Muslim Interscholastic Tournament (MIST) - Judge & Event Coordinator

January 2025 – April 2025

- Judged STEM and business events based on creativity and accuracy while helping coordinate event logistics and volunteer schedules

Drexel University – Member

September 2023 – Present

- Women in Computing Society, Muslim Student Association, Society of Artificial Intelligence, CyberDragons
