EDUCATION

Drexel University

B.S. Computing and Security Technology, College of Computing and Informatics

GPA: 3.32 | Award: Founder's Scholarship (Merit-Based)

Philadelphia, PA

Anticipated Graduation: June 2027

SKILLS

Programming Languages: Python, JavaScript, HTML/CSS, React Native, SQL (basic query analysis)

IT & Technical Tools: GitHub, Wireshark, SIEM (Chronicle/Splunk), Firebase, Visual Studio Code, Microsoft Office (Word, Excel, PowerPoint)

Cybersecurity & Systems Skills: Security Log Analysis, Threat Detection, Incident Response Fundamentals, Network Troubleshooting, Vulnerability Scanning, Linux Command Line, Cybersecurity Frameworks (CIA Triad, NIST), Agile Methodologies, Technical Documentation

EXPERIENCE

Technical Project Coordinator Co-Op

MMB Contractors – Philadelphia, PA 19103

September 2024 – Present

- Led coordination of internal technical teams by managing weekly meetings, organizing project workflows, and maintaining structured documentation to ensure process integrity and timely execution
- Identified and reported 10+ performance bugs during usability testing of CargoStak, a blockchain-based internal platform, contributing to a 30% boost in system stability alongside a 3-person development team
- Conducted technical research and analysis of industry whitepapers on blockchain, cybersecurity, and automation to inform strategic planning

Systems Intern

Drive Integration – Lansdale, PA 19446

June 2024 – September 2024

- Developed and implemented versatile applications tailored for clients using object-oriented programming languages
- Installed and configured 20+ Juniper networking components (switches, cabling) across 3 client locations, enabling 99.9% uptime and streamlining migration plans
- Contributed to network design and engineering projects by creating network migration plans, and configuring network equipment, including fieldwork for installation and troubleshooting

Customer Service Associate

CVS Pharmacy – Lansdale, PA 19446

June 2022 – January 2025

- Delivered exceptional service and consistently received positive customer feedback for professionalism, patience, and problem-solving
- Promoted ExtraCare memberships as a top associate, contributing to store success in exceeding monthly sales quotas
- Supported store operations by processing transactions, restocking inventory, and assisting team members during peak hours

CERTIFICATIONS

AI Python for Beginners — Coursera

Issued May 2025

Google Cybersecurity Professional Certificate — Coursera

Issued January 2025

PROJECT EXPERIENCE

Device Tracker Application

Drive Integration

June 2024 – August 2024

- Developed platform application using React Native to locate devices connected to Juniper Wi-Fi networks
- Implemented real-time tracking features to enhance device location accuracy and user convenience
- Integrated APIs to access network data and display the location of devices within the network

Wardrobe Wizard Application

Computing & Informatics Design – Drexel University

January 2024 – June 2024

- Designed and developed a wardrobe application for personalized fashion advice and outfit cataloging
- Coordinated tasks and version control on GitLab, and contributed to stand-ups and sprint meetings
- Led a team of 4 and utilized JavaScript, React Native, and Firebase for UI/UX design and functionality

ACTIVITIES

TryHackMe – Cybersecurity Lab Platform

April 2025 – Present

- Practicing hands-on cybersecurity skills through labs on TryHackMe, including Linux, networking, and foundational security concepts

Muslim Interscholastic Tournament (MIST) - Volunteer Judge & Event Coordinator

Philadelphia, PA

- Judged STEM and business events based on creativity, accuracy, and presentation
- Helped organize event logistics and coordinate volunteer schedules

January 2025 – April 2025

Drexel University – Member

- Women in Computing Society
- Muslim Student Association
- Society of Artificial Intelligence

Philadelphia, PA

September 2023 – Present
